Christmas Tree Wreath

Designer: Cecilia Rooke

Requirements:

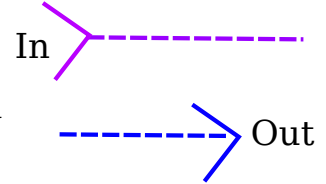

a - 6mm green bicone crystal (60) 

b - 8mm red bicone crystal (6) 

Fishing line 0,25mm and size 8 needle.

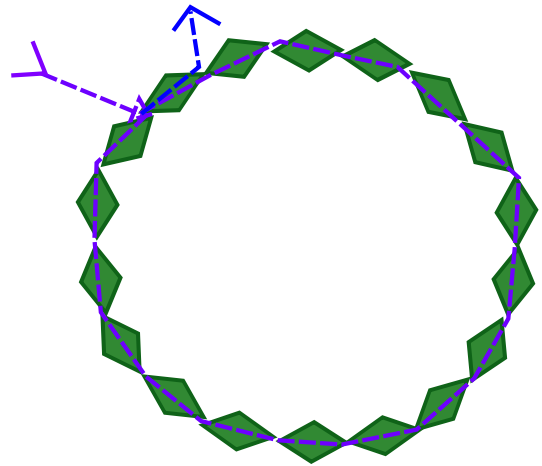

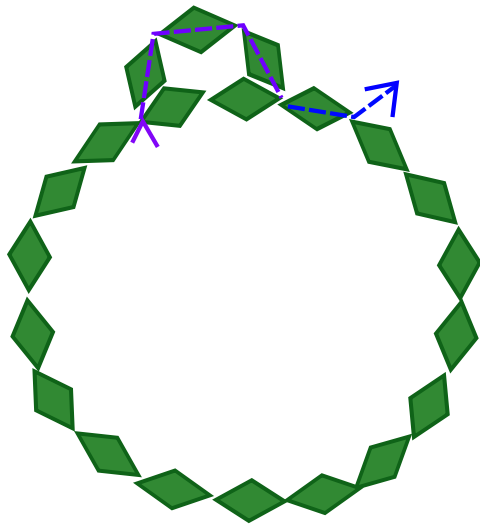

New beads
added

Beads previously
added

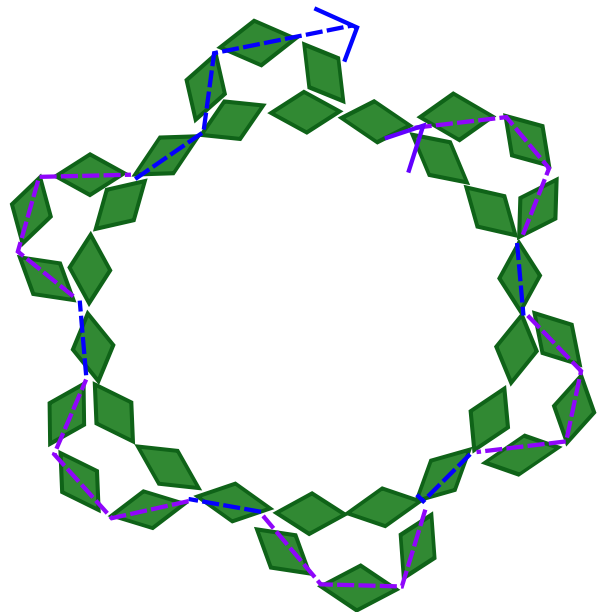

Step 1

Pick up 18a. Leaving a 8" tail, tie a knot with the tail end to form a circle. Go through the first bead added.

Step 2

Add 3a. Skip 2 beads and go through the next bead.

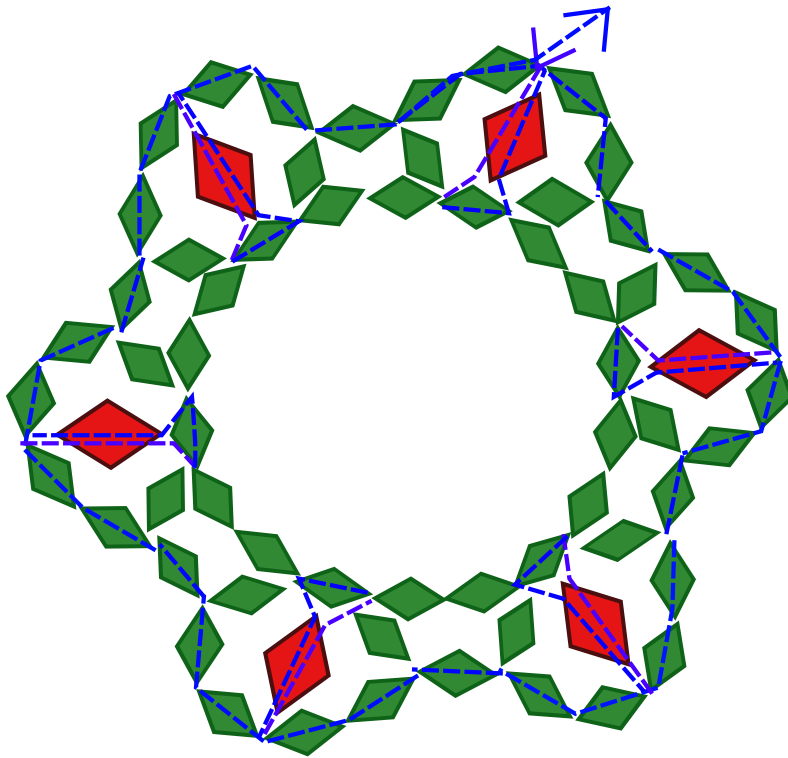

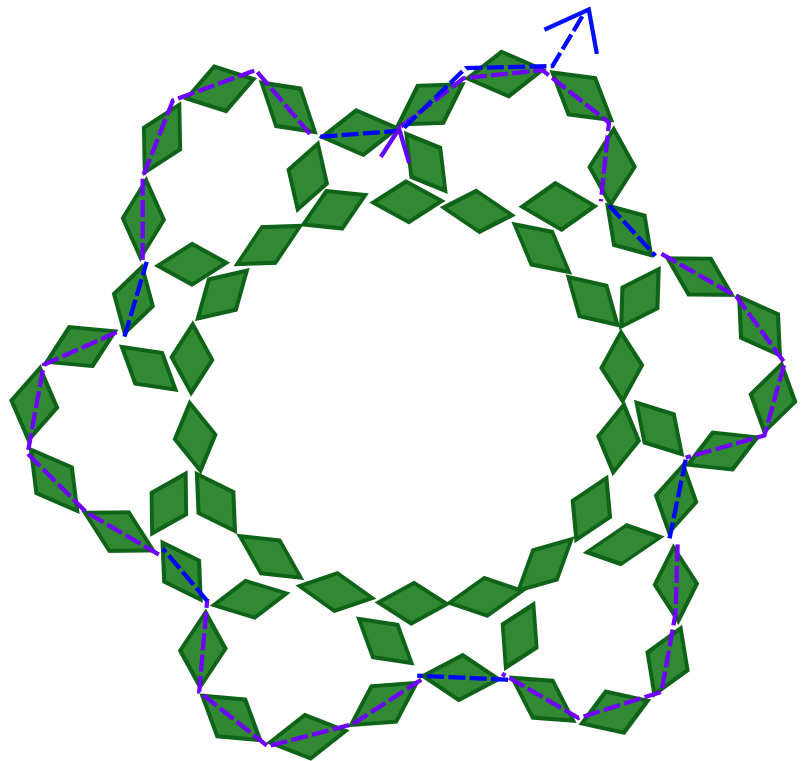

Step 3

Repeat step 2 another 5 times. When the last one is complete, weave your way to the top of the first point.

Step 4

- a) Add 4a. Go through the top of the next point of the previous row.
- b) Repeat a) another 5 times. When the last 4a have been added, weave your way to the middle of the first point made in step 4a).

Step 5

- a) Add 1b. Go through the opposite inside bead, back through the b bead. Weave your way to the middle of the next point.
- b) Repeat another 5 times.

Step 6

Weave the tail thread to the same point as where you ended. Do not cut the thread. Use these 2 threads to tie your wreath to the tree.
